Dear Andy:

Just before the holidays, I had the opportunity to tour the construction site. I wanted you to know how pleased I am with the progress being made. I see the project outside my window every day and, although it is like "watching water boil", it is taking shape nicely.

My reason for this letter is to highly commend you and your team for the neatness and safety always present at the site. This is so important, especially on a hospital site. I have seen many construction sites in the past. Never have I seen such attention to neatness and safety. We selected your company because we knew you would be the best for the job. A decision we do not regret.

Please share this with all of your staff and keep up the great work.

Sincerely,

LAURENS COUNTY HEALTH CARE SYSTEM
